Painting

EIFS (Exterior Insulation and Finish Systems)

The Paint Quality Institute reports that: *Top Quality Exterior Acrylic Low Sheen Paints, and Elastomeric Coatings, Are Excellent Coatings for EIFS*

Benefits

- **Change to a Colour of Your Choice**
 - choose from a wide range of colours
- **Protect and Preserve the Surface**
 - elastomeric coatings keep wind-driven rain from penetrating
- **Fresh, Crisp, "New" Appearance**
- **Long-lasting: rely on the latest technology in top quality 100% acrylic paints**

Requirements

- **Thoroughly Seal All Cracks And Openings** per installer's recommendations
- **Treat Any Mildew; Carefully Scrub and Rinse** to remove chalk and dirt
- **Apply Quality Exterior 100% Acrylic House Paint**
 - if previously unpainted, use a quality acrylic masonry sealer
- **A Quality Elastomeric Coating** may be used if recommended by the EIFS installer
- **Depending on Surface Profile & Sheen** the paint may change appearance: test it first
- **Employ a Quality-oriented Professional Painter**
